

## Adventures of Tracey Tracey

*One-woman character sketch show*

Tracey likes to dream - because real life proves more of a struggle. Shy and painfully awkward, this loveable outsider must navigate in world where confidence is key and reality an illusion.

This 40 minute show from Ecole Philippe Gaulier Graduates Nicola Cross, and co writer Madeleine Bye is a clown inspired, one woman tragi-comedy, guaranteed to make an audience squirm, laugh and cry all at the same time.

Sit back and let this wide eyed, brace faced character take audiences on a journey to see their biggest desires prevail and the plummeting stillness of reality become clear.

The show combines physical comedy with clowning to bring to life a bizarre character's confusing and isolated world, where she never quite fits in. That is until she sees things as they could be... through the form of a magical party hat.

*Adventures of Tracey Tracey* is making its way to the Camden this year. Laced with macabre and packed full of wit, Tracey Tracey will take audiences through the looking glass, with no guarantees they will come out quite the same on the other side.
